Commissioner for Patents

P.O. Box 1450

Alexandria, VA 22313-1450

Sir:

A, B. declares as follows:

1. I am the applicant in the above application. The applicant is an independent inventor, of limited means, yet a good customer of the USPTO. The applicant argues that the applicant could never have anticipated the burden imposed upon the applicant as required by the USPTO. The applicant has 5 pending applications with the USPTO, originally filed on 6/30/00, 7/30/00, 7/19/00, 3/26/02, and the present application mailed on 7/30/01. The applicant has successfully executed and been granted 4 US utility patents, dating back to 1996. But experience has not enabled the applicant to anticipate the demands of applications filed as far back as the year 2000, upon this present response.

2. What follows is the information, supplied on transmittal postcards; copied and pasted from the original transmittal postcards, as sent to the USPTO for the present year thus far.

**The Following Received Today:**

3). The applicant respectfully requests favorable consideration, in that as an independent inventor, the level of work required in being responsive to the USPTO. has exceeded the applicant's ability, given the time constraints, sheer number of Office Actions, and unfortunate concurrent timing of said Office Actions.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application, and patent issuing thereon, or any patent to which this verified statement is directed.

Respectfully submitted,

Clare L. Hoke
